

Energy Services Coalition New York Chapter

May 7, 2014

Presented by: Robert Boyajieff - Public Sector Co-Chair

Matthew McQuinn - Public Sector Co-Chair

#NYESCOSummit

What is the Energy Services Coalition?

- **The Energy Services Coalition (ESC)** is a national nonprofit organization composed of a network of experts from a wide range of organizations working together at the state and local level to increase energy efficiency and building upgrades through energy savings performance contracting.
- **ESC** provides its members with many resources to facilitate performance contracting projects, energy efficiency improvements, and building upgrades

#NYESCOSummit

What Does the ESC Do?

- Helps building owners be good customers through education, information and resources
- Increases solutions and financing options available to building owners
- Makes performance contracting a fully available option for upgrading all types of facilities
- Provides continual improvements of the performance contracting process

#NYESCOSummit
